- Tech disruption
- New entrants

---

---

---

---

---

---

---

---

***The profession of the future***

- Increasing regulation

---

---

---

---

---

---

---

***The profession of the future***

- Increasing regulation
- Diversification into non-core areas

---

---

---

---

---

---

---

***The profession of the future***

- Increasing regulation
- Diversification into non-core areas
- New assurance

---

---

---

---

---

---

---

***The profession of the future***

- Increasing regulation
- Diversification into non-core areas
- New assurance
- Services to the global economy

---

---

---

---

---

---

---

***The profession of the future***

- Increasing regulation
- Diversification into non-core areas
- New assurance
- Services to the global economy
- Cyber

---

---

---

---

---

---

---

***The profession of the future***

- Increasing regulation
- Diversification into non-core areas
- New assurance
- Services to the global economy
- Cyber
- Data visualisation and analysis

---

---

---

---

---

---

---

***The next few years***

- UK negotiates its exit from the European Union whilst looking to new trading relationships with other markets
- Global economic recovery with modest growth in the Eurozone
- Shift in US trade policy under President Trump
- Economic rebalancing in China

---

---

---

---

---

---

---

---

---

---

---

---

---
